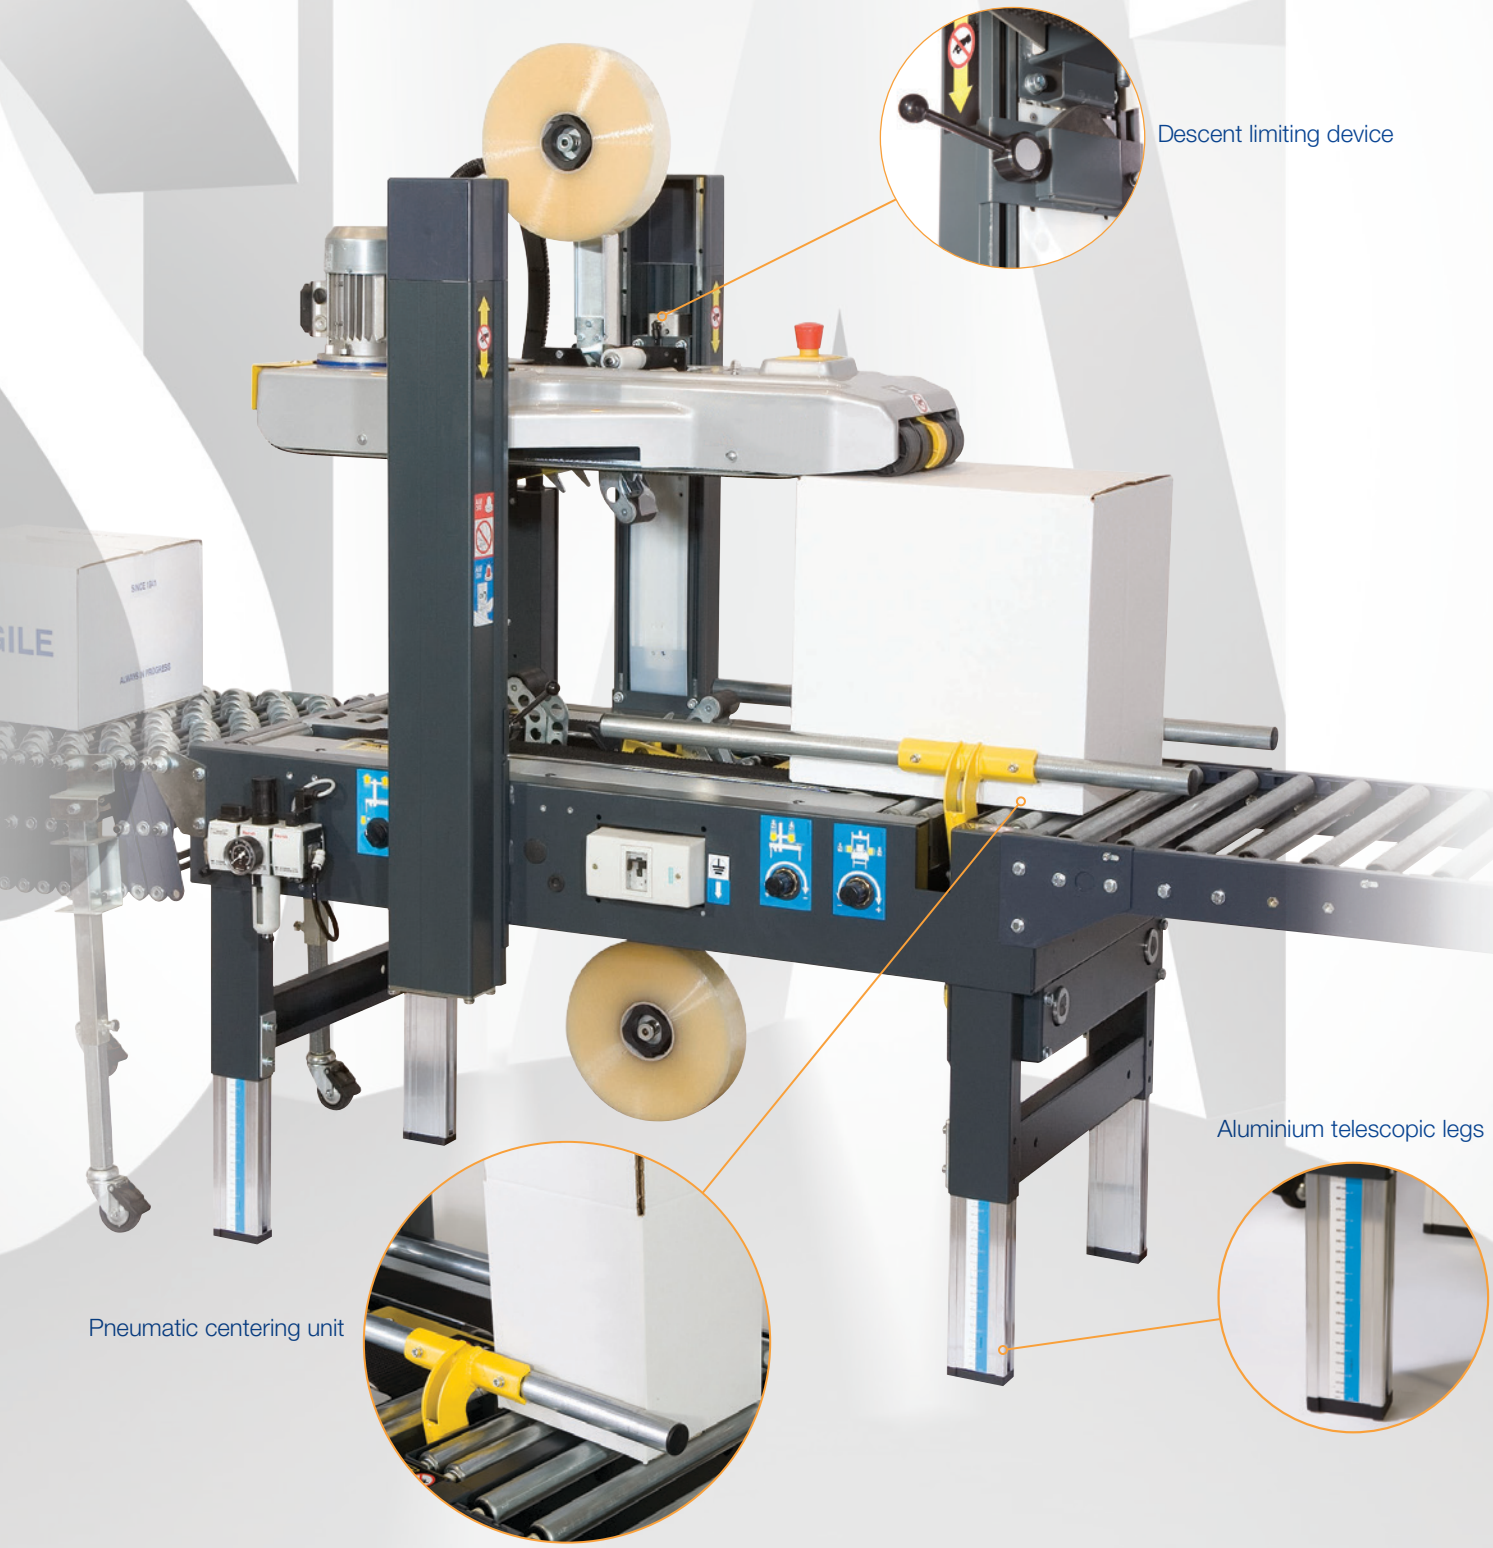
SR46 Semi-Automatic Carton Sealers



CE

for more details:

SR46

SR46 is a semi-automatic sealing machine with random adjustment. The machine consists of a metal structure painted with epossidic paint and columns in aluminium. The sliding plan of boxes is made up of galvanized rolls and stainless steel plate.

Working Cycle: the operator folds the top flaps and moves box forward in the machine until it is taken away by drive belts. The case sealer adjusts itself according to the box size and proceeds with the top and bottom sealing.
The machine has been designed in compliance with CE regulations.
